AND POLLUTION PREVENTION

June 7, 2017

Mark A. Mongiovi  
Regulatory Affairs Manager  
Delta Analytical Corp.  
Senoret Chemical Company, Inc.  
69 North Locust Street  
Lititz, PA 17543

Subject: PRIA Label Amendment – Addition of cockroaches to the label  
Product Name: Terro Dual Bait Stations  
EPA Registration Number: 149-21  
Application Date: 20 March 2017  
Decision Number: 527435

Dear Mr. Mongiovi:

The amended label referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide and Rodenticide Act, as amended, is acceptable. This approval does not affect any conditions that were previously imposed on this registration. You continue to be subject to existing conditions on your registration and any deadlines connected with them.

A stamped copy of your labeling is enclosed for your records. This labeling supersedes all previously accepted labeling. You must submit one copy of the final printed labeling before you release the product for shipment with the new labeling. In accordance with 40 CFR 152.130(c), you may distribute or sell this product under the previously approved labeling for 18 months from the date of this letter. After 18 months, you may only distribute or sell this product if it bears this new revised labeling or subsequently approved labeling. "To distribute or sell" is defined under FIFRA section 2(gg) and its implementing regulation at 40 CFR 152.3.

Should you wish to add/retain a reference to the company's website on your label, then please be aware that the website becomes labeling under the Federal Insecticide Fungicide and Rodenticide Act and is subject to review by the Agency. If the website is false or misleading, the product would be misbranded and unlawful to sell or distribute under FIFRA section 12(a)(1)(E). 40 CFR 156.10(a)(5) list examples of statements EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product's label, claims made on the website may not substantially differ from those claims approved through the registration process. Therefore, should the Agency find or if it is brought to our attention that a website contains false or misleading statements or claims substantially differing from the EPA approved registration, the website will be referred to the EPA's Office of Enforcement and Compliance.

Your release for shipment of the product constitutes acceptance of these conditions. If these conditions are not complied with, the registration will be subject to cancellation in accordance

with FIFRA section 6. If you have any questions, please contact Helen Hull-Sanders by phone at 703-347-0243, or via email at [hull-sanders.helen@epa.gov](mailto:hull-sanders.helen@epa.gov).

Sincerely,

A handwritten signature in blue ink, appearing to read "Gene Benbow".

[Paste Bait] [\_\_\_ Bait Stations \_\_\_ oz. (\_\_\_g) / \_\_\_ oz. (\_\_\_g) each]

**[MASTER LABEL – BACK PANEL PAGE 1 OF 2]**

## PRECAUTIONARY STATEMENTS

### Hazards to Humans and Domestic Animals

**CAUTION:** Causes moderate eye irritation. Avoid contact with skin, eyes or clothing. Wash hands thoroughly with soap and water after use and before eating, drinking, chewing gum, using tobacco, or using the toilet.

FIRST AID	
<b>If In Eyes:</b>	<ul style="list-style-type: none"><li>- Hold eye open and rinse slowly and gently with water for 15-20 minutes.</li><li>- Remove contact lenses, if present, after the first five minutes, then continue rinsing eye.</li><li>- Call a poison control center or doctor for treatment advice.</li></ul>
Have the product or label with you when calling a Poison Control Center or doctor or going for treatment. In case of emergency, for additional information call 800 858 7378.	

### ENVIRONMENTAL HAZARDS

To protect the environment, do not allow bait to enter or run off into storm drains, drainage ditches, gutters or surface waters.

### HOW IT WORKS

[Ants\*] [listed pests] [and] [roaches] [and] [silverfish] will enter the [easy-to-use] [pre-filled] station to feed on the bait. An ant's\* anatomy allows for effective transport and consumption of liquids. Ants\* will come in large numbers at first, but will soon disappear. The liquid bait is specifically formulated to allow worker ants\* to consume the product and survive long enough to carry the bait to the nest and deliver a dose to the rest of the colony.

### DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

DO NOT USE in edible product areas of food handling establishments, restaurants or other areas where food is commercially prepared or processed. Do not use in serving areas while food is exposed. Avoid contamination of feed and foodstuffs. Place bait in areas inaccessible to children and pets.

FOR USE IN AND AROUND: Homes, Hospitals, Restaurants, Apartments, Grocery Stores, Institutional Buildings, Schools, Cafeterias, Warehouses, Storage Areas, Food Processing Plants, Mobile Homes, Boats, Military Bases, Theaters, Nursing Homes, and on Military, Commercial, and Cruise Ships.

ATTRACTS AND KILLS [[LISTED COMMON HOUSEHOLD] ANTS\*] [&] [ROACHES] [LISTED PESTS] [LISTED INSECTS] [INCLUDING]: **Ants:** Acrobat, Allegheny, Argentine, Big headed, Cornfield, Crazy, Ghost, Little black, Odorous house, Pavement, Pyramid, Thief, White footed, and other sweet eating ants\* (except fire ants, pharaoh ants, carpenter ants, and harvester ants); **Others:** Roaches, Silverfish.

USING TERRO® DUAL BAIT STATIONS: Remove other sources of food, like crumbs, sugar, and grease spots. Do not place bait stations where insecticide has recently been sprayed, as listed pests may avoid the bait stations.

Common areas to place bait stations include along baseboards, in corners of rooms and cabinets, on countertops, under and behind appliances, under sinks, around pipes and water sources, in pantry, on window sills and around doorways, near garbage cans, and along ant\* trails.

1. [Break pre-filled TERRO® DUAL BAIT STATIONS bait stations apart from plastic frame.]
2. Hold bait station firmly with bait pack tab(s) facing up. [Break] [Twist] [Snap] [off] [open] the bait pack tab(s) being careful to not spill the bait.
3. [Using the retaining slots in the bait pack tabs, fold back the bait pack tabs and [secure] [attach] [lock] them to station].
4. Place bait station on flat surface [with bait pack tab(s) facing up] near where listed pests or their signs have been seen. Place additional TERRO® DUAL BAIT STATIONS bait stations anywhere ants\*, roaches, and silverfish may enter your home. Heavily infested areas may require additional bait stations. [For best results, use [all] [number] bait stations to ensure sufficient supply for the listed pests.]
5. Monitor placements regularly but do not interfere with the listed pests or bait stations. Replace when bait is depleted or every 3 months.

The key to successful baiting is to ensure there is always a sufficient supply of TERRO® DUAL BAIT STATIONS [bait] when listed pests are present.

\*except fire ants, pharaoh ants, carpenter ants, and harvester ants

**[MASTER LABEL – BACK PANEL PAGE 2 OF 2]**

For further information on successful pest control using the TERRO® brand of [[ant] [&] [insect] control] products, visit our web site ([www.Terro.com](http://www.Terro.com)).

**STORAGE AND DISPOSAL**

Do not contaminate water, food, or feed by storage and disposal.

**STORAGE:** Store in a cool dry place. Do not store where children or animals may gain access.

**PESTICIDE DISPOSAL AND CONTAINER HANDLING:** Non-refillable Container. Do not reuse or refill this container. **If empty:** Place in trash or offer for recycling if available. **If partly filled:** Call your local solid waste agency for disposal instructions. Never place unused product down any indoor or outdoor drain.
